APS MS-GEL PRO TECHNICAL DATA SHEET

APS MS-GEL PRO

Name of the product: APS MS-GEL PRO

Manufacturer: Access Printing Solution, le Pont de Dranse, 74500 Publier France

Packaging: 1 Fiberboard box containing 3 Bottles of 0.95L/1kg

Aim of the Product:

- APS MS-GEL PRO: Maintenance Product for Ceramic Anilox rolls and chromed rolls

The APS MS-GEL PRO is a very fast and effective cleaning product to remove dry inks (Solvent, Water and UV based inks), varnishes and coatings from ceramic anilox rolls and chromed rolls. 0.95L/1kg bottle will be able to clean between 30 and 35 square meters of ceramic.

Way of use: Apply a thin layer of the APS MS-GEL PRO with a glove on the roll and let it work for 15 minutes at least every week to prevent from clogging. You can also leave the APS MS-GEL PRO over night for a deep cleaning.

Rinse very well the roll with a wet tissue until no more product remains on the roll. Help remove the dissolved ink from the cells of the anilox roll by using our Stainless Steel brush with PVC base or Brass Brush with PVC base.

All cleaning residues can be directly sent with other plant wastes for recycling.
